

Webinar: Learning Outcomes

Thank you for attending our online webinar:

June 17, 2020

Aga Khan Park: Museum and Ismaili Centre Case Study—Testing and Material Selection

Here's a recap of what we covered:

- **Inspiration**—Moriyama & Teshima's vision and concept for this award-winning, multi-project site
- **Sourcing & Testing**—how our selection of White Brazilian Granite coupled with our expertise, ensured the stone was engineered and anchored to the concrete effectively and precisely!
- **Team Collaboration**—our role as stone consultants to the Owner group and working with contractors Clifford Masonry.
- **Challenges**—how we overcame the challenges of the complex shape of the buildings.

PRESENTED BY:

Mike Picco—President
Afsheen Khan—Senior
Structural Engineer
